On May 3rd 2018 the UCLA Graduate School of Education & Information Studies will host the fifth annual Research & Inquiry Conference. In a time of growing skepticism concerning knowledge claims and institutions, the 2018 conference theme is Reclaiming Expertise: Facing Challenges to Knowledge, Practice, Authenticity, & Trust.

What are the responses to this shift for research, scholarship, creative work, teaching and learning, intellectual freedom, autonomy and agency, public life and informed opinion, citizenship, and the communities we are from and where we work and live?

THURSDAY MAY 3RD, 2018

Conference Schedule 9am - 6:30pm

Morning Sessions **9:00am - 12:30pm**

Registration and Breakfast
9:00 AM - 9:30 AM @ California Room

Participatory Sessions
9:30 AM-12:30 PM @ California and Sierra Rooms

Poster Session
10:00 AM - 12:00 PM @ Hacienda Room

Light Refreshments
10:45 AM @ California Room

Lunch & Keynote **12:00pm - 1:45pm**

Lunch
12:00 PM - 1:30 PM @ California Room

Keynote
12:30 PM - 1:30 PM @ California Room

Afternoon Sessions **1:45pm - 4:45pm**

Participatory Sessions
1:45 PM - 4:45 PM @ California and Sierra Rooms

Poster Session
2:15 PM - 4:15 PM @ Hacienda Room

Light Refreshments
3:45 PM @ California Room

Awards & Reception **4:45pm - 6:30pm**

Awards and Closing Remarks
4:45 PM @ California Room

Reception
5 PM - 6:30 PM @ California Patio

Keynote: Child | Data | Citizen

Datafication, Algorithmic Inaccuracies, and the Profiling of Future Citizens.

Dr. Veronica Barassi
Department of Media and Communications
Goldsmiths, University of London

In the last decade we have witnessed a radical transformation in knowledge practices, as governments, businesses, educational institutions, healthcare providers and multiple other agents have started to turn all aspects of everyday life into data (Cukier & Mayor-Schoenberger, 2013). This process of 'datafication of everything' is leading to the creation of large datasets of very intimate, private and sensitive information about citizens' lives. This latter point is particularly evident if we consider the ways in which children's data is gathered, stored and integrated in ways that were not possible before. Today, from the moment in which a child is conceived, important biometric information is uploaded on social media or pregnancy apps. As children grow up most of their health and educational data is digitised, archived and sold by

privately owned corporations. All these different forms of data monitoring and processing are just the tip of the iceberg, and the picture becomes much more complex if we consider the role played by home hubs, artificial intelligence systems, facial recognition technologies and genetic mapping. ...[continue reading](#)

Morning Sessions: 9:30 AM

WORKING IN GOOD FAITH WITH INDIGENOUS COMMUNITIES: IMPLEMENTING PRINCIPLES OF FREE PRIOR INFORMED CONSENT

For years, indigenous communities have advocated for their sovereignty rights and increased control over their lands, natural resources, and cultural heritage. One outcome of these efforts is the United Nation Declaration on the Rights of Indigenous Peoples...

LEAKY KNOWLEDGE: MANNING, SNOWDEN, ASSANGE AND THE (IDENTITY) POLITICS OF DISCLOSURE

This “fireside chat” session of the R&I Conference asks participants to consider the effect of knowledge that has come about through leaks, with a focus on the leaking of classified military documents via WikiLeaks in the case of Edward Snowden...

BLACK GIRLS AND SCHOOL DISCIPLINE: A HOLISTIC CASE STUDY THROUGH A BLACK FEMINIST LENS

Using a Womanist Care framework alongside current research, this session will discuss the ways in which a school’s environment shapes academic achievement for Black girls who have been disciplined in excessive and severe ways. This session will provide...

INVERTING EXPERTISE IN USER EXPERIENCE DESIGN

In this Participatory Session, we investigate and analyze existing popular interfaces – such as those of Google, Twitter, and Amazon – and identify the purposes, agents, and qualities of their user experiences. Participants then form groups to produce...

HOW DO RESEARCH-PRACTICE PARTNERSHIPS GENERATE KNOWLEDGE? FOSTERING METHODOLOGICAL DIVERSITY IN A UNIVERSITY-PARTNERED COMMUNITY SCHOOL CONTEXT

Increasing support for research-practice partnerships (RPPs) offers opportunities for researchers to reexamine and redefine rigor and relevance in educational research. Scholarship on RPPs typically focuses on the different perspectives...

10:00 AM - RESEARCH POSTER SESSION

In addition to the participatory sessions there two research poster sessions featuring over 50 posters of original research. The first session will be from 10:00am - Noon in the Hacienda Room. The second poster session will be from 2:15 PM - 4:15 PM in the Hacienda Room.

Afternoon Sessions: 1:45 PM

POWER OF REFLECTIVE PRACTICE: TEACHER ACTION RESEARCH AT THE UCLA LAB SCHOOL

Elementary school teachers play a unique role in preparing students to be ethical, reflective, and engaged participants in our communities. Yet teachers are frequently the object of school reform policies rather than active participants in the creation...

WHAT'S ALL THIS I HEAR ABOUT SELF-REGULATION, EXECUTIVE FUNCTION, AND MINDFULNESS?

The aim of this participatory session is to engage in a discussion about self-regulation in the classroom, strategies to teach children self-regulation, and ideas to better define and measure self-regulation as a construct to improve future research...

A SCHOOL BY THE PEOPLE, FOR THE PEOPLE: REIMAGINING PUBLIC EDUCATION IN THE ERA OF PRIVATIZATION

In countries and states everywhere, public education is under attack. From school voucher programs to the surging charter school movement, the promises of market competition and choice-based policies are shaking the foundation of public schools as...

MAKING AN IMPACT: TRANSLATING EDUCATION RESEARCH INTO POLICY AND ACTION

In this session, we will raise questions about the relationship between research and policy, which we will begin to answer as a group. What is the role of researchers in educational policy? In what ways have faculty and students used research to inform educational policy? ...

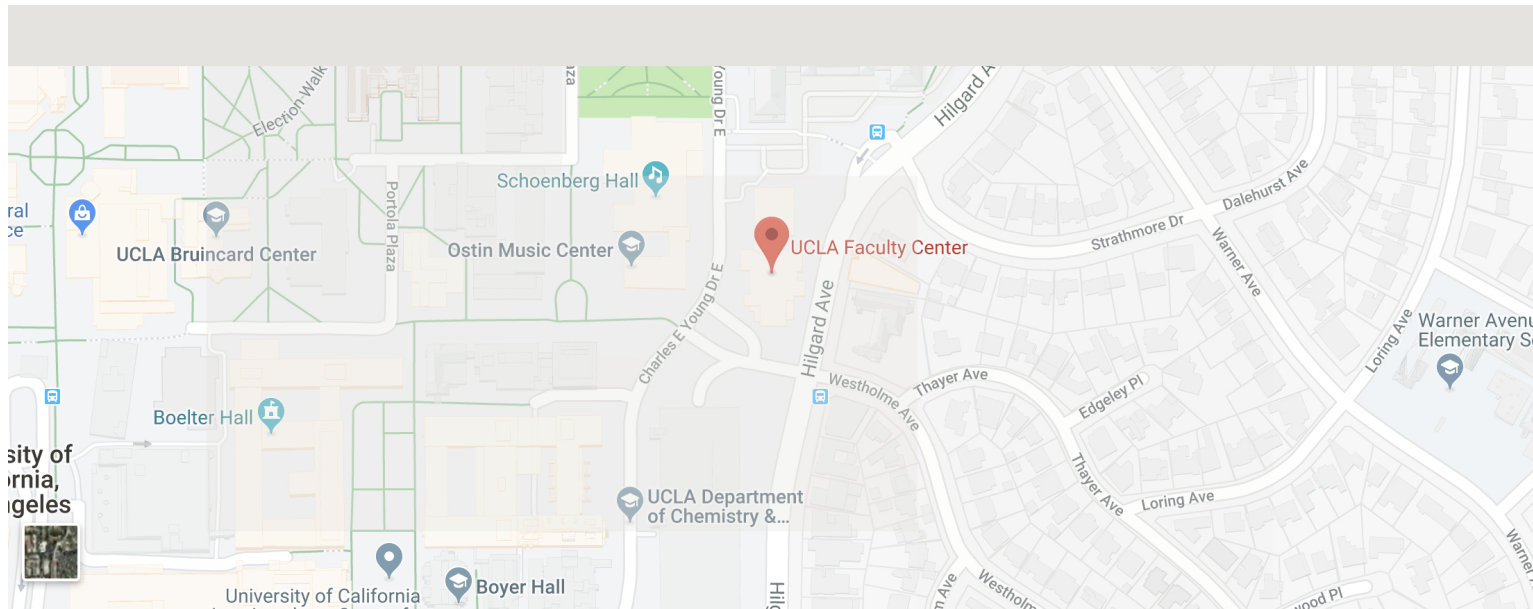

HOW DO YOU KNOW?: SELF-INTERROGATION & THE ROOT(S) OF QUEERNESS

Through image-driven, first person narratives, this session asks participants to question their ways of knowing. Specifically looking at queer marginalities, we ask: how do queer people first locate their otherness? Is there such a thing as a "gay root"? ...

2:15 PM - RESEARCH POSTER SESSION

In addition to the participatory sessions there two research poster sessions featuring over 50 posters of original research. The first session will be from 10:00am - Noon in the Hacienda Room. The second poster session will be from 2:15 PM - 4:15 PM in the Hacienda Room.
