Hello fellow ISers, since we seem to be enjoying a spring shower of student awards and recognitions, in my role as R+I program team member, I just wanted to add these (sorry for duplication if you've seen this already!)

I'm especially pleased that two of the top three participatory sessions at Thursday's conference were organized by IS students:

- "Inverting Expertise in User Experience Design," organized by Ph.D. students **Jonathan Calzada** and **Peter Polack** (Grand Prize)
- "How Do You Know? Self-Interrogation & the Root(s) of Queerness," organized by MLIS students

Isaac Williams and Ariel Hahn (Runner Up)

Great work, and well done all! It was a great day and you helped make it happen!

Leah

Hi Lynn,

I just wanted to share our award for a participatory workshop Peter Polack (in my cohort), and I conducted at the R&I conference. I have also attached the description of the workshop to give you an idea of what we did. I would like to continue doing these kinds of workshops as we develop some theory around it. I'll keep you updated.

btw, it was nice to see you briefly while I took some of your pizza last week. :-)

Cheers,
Jonathan
